MEMORANDUM

DATE: February 22, 2019

TO: Mayor White & City Council

VIA: Mercy Rushing, City Administrator

FROM: Cindy Karch, Finance Director

SUBJECT: New Lenovo Server City Hall

Council Meeting Agenda Item for February 25, 2019

(X)

Background Information:

Our file/system server for city hall/administration is about 5 to 6 years old, which is life expectancy for a server. Our IT consultant, Chris Goldsmith has been telling me for months that our server is quite old and is needing to be upgraded. He spends quite a bit of hours keeping it "alive" and running properly. Cause of failure of this machine is simply age.

Our current server is a 2 TB at Raid 5, which means it has three hard drives and if one goes out, the other two will take over so that no data is lost. If two go out, data could be lost.

The new server is a 8 TB at Raid 6 which means it will have 4 hard drives and we could essentially lose two without losing data and causing down-time.

There is a separate server at city hall which houses STW, our main accounting and utility billing software. It is roughly the same age as the file server and has been causing issues and downtime quite a bit lately. The new server is large enough to combine both of the old servers into this new one.

Funds to purchase the new server will come from interest income. General fund budget for 2019 was \$15,000. As of Jan 31st, total interest earned is \$39,571.00.

Recommendation:

It is recommended that council approve the ordinance.
