Subject **Extra Patrol Businesses / Curfew Enforcement**

Message ***With small businesses closing and people staying at home. The fear of their business being broken into and property being removed has become a big talking point. Please get out and shake doors, check windows and walk the downtown area. Log your checks so that if something was to happen we would have documentation to show. With traffic contacts slowing down, this should allow for more building checks.
Also with school being out all of the time, lets make sure we are enforcing our curfew ordinance.
Thanks,
201***
