Subject: Hogg Street Water Break Update today - MErcy
Attachments: IMG_1568.jpg; IMG_1569.jpg; IMG_1574.jpg; IMG_1575.jpg; Hogg Street Leak.jpg

Importance: High

Good Afternoon Everyone,

Well, the good news we got all the materials in today that we need to get this project completed, however due to change of weather , the guys were worried about rain today so we have decided to get started first thing tomorrow morning. I am told it will take a minimum of 8 -9 hours to complete this job tomorrow. The good news all have water and all of the citizens in this area have been very understanding about the situation. Our water dept and street dept guys have been great in communicating with the citizens so that they are aware what's going with this emergency work and what the guys will be doing to fix the problem. Yesterday, the guys left work around 7:00 p.m. so they really did work around the clock the last couple of days. We got in our new 20 ft. 8 inch water pipe to replace the broken pipe currently still underground, see attach photos.

Hope you all have a good evening.
