

Street Improvements

Bridge guardrail

We started the project on 7/20/2022 and completed the project on 7/30/2022

We put up metal sheeting around the drainage ditch on university and widened the road.

Street Rebuild

The project started on 8/01/2022, and went until 8/12/2022. This project was for the complete rebuild of Meadowbrook street from North Pacific to Kenny street.

During the rebuild we milled the street to the base layer and repaired all the weak base. Upon completion we started with the asphalt overlay.
