

Total students for fire prevention programs were 260 including the following –

- 1. First Grade at Mineola Schools**
- 2. Primary students at Alba-Golden Schools**
- 3. 2 Day cares in Mineola.**

Also, we worked with 99.9 KMOO to record and produce five PSA announcements that were Fire Safety Tips about cooking fires, (this year's Fire Safety month theme) that were played 5 – 8 times per day for the entire month on both 99.9 KMOO and their sister station 95.1 KWJB. These spots each time they played reached from 25,000 to 40,000 listeners. They have asked that we do more of this type of PSA announcement for each season. This partnership will allow us to better educate the Mineola Community and surrounding areas with fire safety tips as well as emergency weather seasonal information.
